Site Plan

Comments

- 100% Leased
- QEW exposure - average of 171,000 cars per day. Border of Oakville and Mississauga.
- QEW North Service Road Extension via Ford Drive Exit construction **now complete**.
- New Oakville Bus Transit Route connects Joshua Creek Corporate Centre Tenants to the Oakville Go Station and nearby amenities with stop directly in front of Joshua Creek Corporate Centre.
- Nearby walking and running trails, Iroquois Shoreline Woods Park is located at the southwest intersection of Upper Middle Road and North Service Road. At 35 hectares, it is the one of the largest remaining upland woodlots below the Niagara Escarpment.

Amenities Map

New Oakville Bus Transit

New Oakville Bus Transit Route is up and running - Bus stop in front of the Joshua Creek Corporate Centre connects with the Oakville Go Station.

TECHNICAL SPECIFICATIONS

Utilizing “Green Friendly” Principals, the Joshua Creek Corporate Centre is designed to satisfy a wide range of tenant requirements.

STRUCTURAL DATA

- Single Storey (16' to U/S of steel).
- Efficient R/U ratio (gross up factor) of less than 2%.
- Exterior walls are aluminium and glass curtain walls, pre-finished metal panels and architectural concrete.

PARKING

- Free surface parking, first come, first serve.
- 4+ parking spaces per 1,000 sf of rentable area.

BUILDING EXTERIOR FINISHES

- Double-entry glass doors.
- Tinted double glazed low “E” coated vision windows to LEED® standard.

MECHANICAL SYSTEM

HVAC systems can be tailored to tenant's specific requirements and designed to achieve LEED Credits for Energy Optimization.

FLOORING

- 4" Concrete slab on grade throughout.
- Floors to be smooth, level, and ready to receive floor finishes by tenant.

ELECTRICAL

The electrical system shall be supported by incoming service capability sufficient to satisfy the needs of standard office users throughout the space.

From a central electrical room, suitably sized, individual services may be provided to each tenant space, specifically designed to satisfy the requirements of the tenant.

PLUMBING AND DRAINAGE

Plumbing and drainage system is flexible regarding the specific placement of washrooms, cafeteria, and other facilities within the space that require the provision of potable water and the use of sanitary drainage.

FIRE PROTECTION

Premises shall be equipped with a complete wet pipe sprinkler system in accordance with N.F.P.A. 13 and the Ontario building code, all designed to satisfy the requirements for the office occupancy (light hazard 0.10 gpm per sf). System shall be specifically designed to allow for custom modification to satisfy tenant requirements.
